Result Footnote

f1: Menopausal Status

Perimenopause: Less than 5 years to Final Menstrual Period.

f2: EER AMH Menocheck

Authorized individuals can access the ARUP Enhanced Report using the following link:

Test Information

i1: Anti-Mullerian Hormone, Menopause

INTERPRETIVE INFORMATION: Anti-Mullerian Hormone, Menopause

MenoCheck is an FDA-cleared test intended to be used as an aid in the determination of menopausal status in people between 42 to 62 years of age that were assigned female at birth. This test should be used in conjunction with other clinical and laboratory findings. This test should not be used to assess a menstruating individual's fertility status or for use in monitoring or predicting the ovarian response in menstruating individuals undergoing or planning to undergo fertility treatments.
